Net revenue is a non-GAAP financial measure that represents revenue less interchange and network fees, while gross profit represents revenue less interchange and network fees as well as other costs of services. Adjusted EBITDA is a non-GAAP financial measure that represents net income adjusted for interest expense, depreciation and amortization and certain other non-cash charges and non-recurring items. See “Non-GAAP Financial Measures” and “Reconciliation of GAAP to Non-GAAP Financial Measures” below.

REPAY previously announced that it had entered into a merger agreement with Thunder Bridge Acquisition, Ltd. (NASDAQ: TBRG) (“Thunder Bridge”) for a proposed business combination. ## **Non-GAAP Financial Measures**

This press release includes certain non-GAAP financial measures that REPAY uses to evaluate its business, measure its performance and make strategic decisions. REPAY believes that such non-GAAP financial measures provide useful information to investors and others in understanding and evaluating its operating results in the same manner as management. Net revenue is a non-GAAP financial measure that represents revenue less interchange and network fees. Adjusted EBITDA is a non-GAAP financial measure that represents net income prior to interest expense and depreciation and amortization, as adjusted to add back certain non-cash charges and account for non-recurring items, such as other expenses, non-cash change in fair value of contingent consideration, share-based compensation expense, transaction expenses, and other non-recurring charges. Net revenue and Adjusted EBITDA should not be considered as substitutes for financial measures calculated in accordance with GAAP but instead considered alongside such measures calculated in accordance with GAAP. In particular, using Adjusted EBITDA to analyze REPAY's business would have material limitations because the calculations are based on the subjective determination of management regarding the nature and classification of events and circumstances that investors may find significant. In addition, although other companies in the industry may report measures titled Adjusted EBITDA or similar measures, such non-GAAP financial measures may be calculated differently from how REPAY calculates Adjusted EBITDA, which reduces its overall usefulness as a comparative measure. Because of these limitations, you should consider Adjusted EBITDA alongside other financial performance measures, including net income and other financial results presented in accordance with GAAP.

## **Forward-Looking Statements**

This communication contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about future financial and operating results, our plans, objectives, expectations and intentions with respect to future operations, products and services; and other statements identified by words such as "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "believe," "intend," "plan," "projection," "outlook" or words of similar meaning. These forward-looking statements include, but are not limited to, statements regarding REPAY's industry and market sizes, future opportunities for Thunder Bridge, REPAY and the combined company, Thunder Bridge's and REPAY's estimated future results and the proposed business combination between Thunder Bridge and REPAY, including the implied enterprise value, the expected transaction and ownership structure and the likelihood and ability of the parties to successfully consummate the proposed business combination. Such forward-looking statements are based upon the current beliefs and expectations of our management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are difficult to predict and generally beyond our control. Actual results and the timing of events may differ materially from the results anticipated in these forward-looking statements.

In addition to factors previously disclosed in Thunder Bridge's reports filed with the SEC and those identified elsewhere in this communication, the following factors, among others, could cause actual results and the timing of events to differ materially from the anticipated results or other expectations expressed in the forward-looking statements: inability to meet the closing conditions to the business combination, including the occurrence of any event, change or other circumstances that could give rise to the termination of the merger agreement; the inability to complete the transactions contemplated by the merger agreement due to the failure to obtain approval of Thunder Bridge's shareholders, the inability to consummate the contemplated debt financing, the failure to achieve the minimum amount of cash available following any redemptions by Thunder Bridge shareholders or the failure to meet The Nasdaq Stock Market's listing standards in connection with the consummation of the contemplated transactions; costs related to the transactions contemplated by the merger agreement; a delay or failure to realize the expected benefits from the proposed business combination; risks related to disruption of management time from ongoing business operations due to the proposed business combination; changes in the payment processing market in which REPAY competes, including with respect to its competitive landscape, technology evolution or regulatory changes; changes in the vertical markets that REPAY targets; risks relating to REPAY's relationships within the payment ecosystem; risk that REPAY may not be able to execute its growth strategies, including identifying and executing acquisitions; risks relating to data security; changes in accounting policies applicable to REPAY; and the risk that REPAY may not be able to develop and maintain effective internal controls.

Actual results, performance or achievements may differ materially, and potentially adversely, from any projections and forward-looking statements and the assumptions on which those forward-looking statements are based. There can be no assurance that the data contained herein is reflective of future performance to any degree. You are cautioned not to place undue reliance on forward-looking statements as a predictor of future performance as projected financial information and other information are based on estimates and assumptions that are inherently subject to various significant risks, uncertainties and other factors, many of which are beyond our control. All information set forth herein speaks only as of the date hereof in the case of information about Thunder Bridge and REPAY or the date of such information in the case of information from persons other than Thunder Bridge or REPAY, and we disclaim any intention or obligation to update any forward looking statements as a result of developments occurring after the date of this communication. Forecasts and estimates regarding REPAY's industry and end markets are based on sources we believe to be reliable, however there can be no assurance these forecasts and estimates will prove accurate in whole or in part. Annualized, pro forma, projected and estimated numbers are used for illustrative purpose only, are not forecasts and may not reflect actual results.

#### **No Offer or Solicitation**

This communication shall not constitute a solicitation of a proxy, consent or authorization with respect to any securities or in respect of the proposed business combination. This communication shall also not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities in any states or jurisdictions in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. No offering of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended, or an exemption therefrom.
