Q2 2026 Earnings Supplement

August 2026

Disclaimer

Repay Holdings Corporation ("REPAY" or the "Company") is required to file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission ("SEC"). Such filings, which you may obtain for free at the SEC's website at <http://www.sec.gov>, discuss some of the important risk factors that may affect REPAY's business, results of operations and financial condition.

Forward-Looking Statements

This presentation (the "Presentation") contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about future financial and operating results, REPAY's plans, objectives, expectations and intentions with respect to future operations, products and services; and other statements identified by words such as "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "believe," "intend," "plan," "projection," "outlook" or words of similar meaning. These forward-looking statements include, but are not limited to, REPAY's 2026 outlook and other financial guidance, anticipated benefits from the KUBRA acquisition, expected demand on REPAY's product offering, including further implementation of electronic payment options and statements regarding REPAY's market and growth opportunities, and REPAY's business strategy and the plans and objectives of management for future operations. Such forward-looking statements are based upon the current beliefs and expectations of REPAY's management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are difficult to predict and generally beyond REPAY's control. In addition to factors previously disclosed in REPAY's reports filed with the SEC, including its Annual Report on Form 10-K for the year ended December 31, 2025 and Quarterly Report on Form 10-Q for the quarter ended June 30, 2026, the following factors, among others, could cause actual results and the timing of events to differ materially from the anticipated results or other expectations expressed in the forward-looking statements: the inability to integrate and/or realize the benefits of the KUBRA transaction, including expected synergies; that the KUBRA acquisition could disrupt the Company's relationships with customers, employees or other business partners; the impact, cost and effect of actions by activist stockholders; the risk that our stockholder rights plan may delay, discourage or prevent a change of control or acquisition of the Company, even if such action may be considered beneficial by some stockholders; exposure to economic conditions and political risk affecting the consumer loan market, the receivables management industry, the utilities industry and consumer and commercial spending, including bank failures or other adverse events affecting financial institutions, inflationary pressures, evolving U.S. trade policies, or general economic slowdown; changes in the payment processing market in which REPAY competes, including with respect to its competitive landscape, technology evolution or regulatory changes; changes in the vertical markets that REPAY targets, including the regulatory environment applicable to REPAY's clients; the ability to retain, develop and hire key personnel; risks relating to REPAY's relationships within the payment ecosystem; risk that REPAY may not be able to execute its growth strategies, including identifying and executing acquisitions; risks relating to data security; changes in accounting policies applicable to REPAY; and the risk that REPAY may not be able to maintain effective internal controls. Actual results, performance or achievements may differ materially, and potentially adversely, from any projections and forward-looking statements and the assumptions on which those forward-looking statements are based. There can be no assurance that the data contained herein is reflective of future performance to any degree. You are cautioned not to place undue reliance on forward-looking statements as a predictor of future performance. All information set forth herein speaks only as of the date hereof in the case of information about REPAY or the date of such information in the case of information from persons other than REPAY, and REPAY disclaims any intention or obligation to update any forward-looking statements as a result of developments occurring after the date of this Presentation. Forecasts and estimates regarding our industry and end markets are based on sources REPAY believes to be reliable, however there can be no assurance these forecasts and estimates will prove accurate in whole or in part. Annualized, pro forma, projected and estimated numbers are used for illustrative purpose only, are not forecasts and may not reflect actual results.

Industry and Market Data

The information contained herein also includes information provided by third parties, such as market research firms. Neither of REPAY nor its affiliates and any third parties that provide information to REPAY, such as market research firms, guarantee the accuracy, completeness, timeliness or availability of any information. Neither REPAY nor its affiliates and any third parties that provide information to REPAY, such as market research firms, are responsible for any errors or omissions (negligent or otherwise), regardless of the cause, or the results obtained from the use of such content. Neither REPAY nor its affiliates give any express or implied warranties, including, but not limited to, any warranties of merchantability or fitness for a particular purpose or use, and they expressly disclaim any responsibility or liability for direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees or losses (including lost income or profits and opportunity costs) in connection with the use of the information herein.

Non-GAAP Financial Measures

This Presentation includes certain non-GAAP financial measures that REPAY's management uses to evaluate its operating business, measure its performance and make strategic decisions. Adjusted EBITDA is a non-GAAP financial measure that represents net income prior to interest expense, tax expense, depreciation and amortization, as adjusted to add back certain charges deemed to not be part of normal operating expenses, non-cash and/or non-recurring charges, such as non-cash impairment loss, loss on business disposition, loss on extinguishment of debt, loss on termination of interest rate hedge, non-cash change in fair value of contingent consideration, non-cash change in fair value of assets and liabilities, share-based compensation charges, transaction expenses, restructuring and other strategic initiative costs and other non-recurring charges. Adjusted EBITDA margin is a non-GAAP financial measure that represents Adjusted EBITDA divided by GAAP revenue. Adjusted Net Income is a non-GAAP financial measure that represents net income prior to amortization of acquisition-related intangibles, as adjusted to add back certain charges deemed to not be part of normal operating expenses, non-cash and/or non-recurring charges, such as non-cash impairment loss, loss on business disposition, loss on extinguishment of debt, loss on termination of interest rate hedge, non-cash change in fair value of contingent consideration, non-cash change in fair value of assets and liabilities, share-based compensation expense, transaction expenses, restructuring and strategic initiative costs and other non-recurring charges, non-cash interest expense, net of tax effect associated with these adjustments. Adjusted Net Income is adjusted to exclude amortization of all acquisition-related intangibles as such amounts are inconsistent in amount and frequency and are significantly impacted by the timing and/or size of acquisitions. Management believes that the adjustment of acquisition-related intangible amortization supplements GAAP financial measures because it allows for greater comparability of operating performance. Although management excludes amortization from acquisition-related intangibles from REPAY's non-GAAP expenses, management believes that it is important for investors to understand that such intangibles were recorded as part of purchase accounting and contribute to revenue generation. Organic revenue growth is a non-GAAP financial measure that represents the percentage change in the applicable metric for a fiscal period over the comparable prior fiscal period, exclusive of any incremental amount attributable to acquisitions or divestitures made in the comparable prior fiscal period or any subsequent fiscal period through the applicable current fiscal period. Any financial measure (whether GAAP or non-GAAP) that is modified by "excl. political media" or "normalized" is a non-GAAP financial measure that measures a defined growth rate exclusive of the estimated contribution from political media clients in the prior corresponding period. Free Cash Flow is a non-GAAP financial measure that represents net cash flow provided by operating activities less total capital expenditures. Free Cash Flow Conversion represents Free Cash Flow divided by Adjusted EBITDA. Adjusted Free Cash Flow is a non-GAAP financial measure that represents Free Cash Flow plus technology, merger and integration costs. Adjusted Free Cash Flow Conversion represents Adjusted Free Cash Flow divided by Adjusted EBITDA. Net leverage is a non-GAAP financial measure that represents Net Debt (Total Debt minus Cash) divided by LTM Adjusted EBITDA. LTM Adjusted EBITDA represents the sum of the Adjusted EBITDA for the four most recent fiscal quarters. Combined LTM Net Leverage represents LTM Adjusted EBITDA as of 6/30/2026 for REPAY and KUBRA adjusted for transaction-related adjustments and synergies. REPAY believes that each of the non-GAAP financial measures referenced in this paragraph provide useful information to investors and others in understanding and evaluating its operating results in the same manner as management. However, these non-GAAP financial measures are not financial measures calculated in accordance with GAAP and should not be considered as a substitute for net income, operating profit, or any other operating performance measure calculated in accordance with GAAP. Using these non-GAAP financial measures to analyze REPAY's business has material limitations because the calculations are based on the subjective determination of management regarding the nature and classification of events and circumstances that investors may find significant. In addition, although other companies in REPAY's industry may report measures titled with the same or similar description, such non-GAAP financial measures may be calculated differently from how REPAY calculates its non-GAAP financial measures, which reduces their overall usefulness as comparative measures. Because of these limitations, you should consider each of the non-GAAP financial measures referenced in this paragraph alongside other financial performance measures, including net income and REPAY's other financial results presented in accordance with GAAP.

Q2 2026 Revenue and Adjusted EBITDA Margin Dynamics

- Consistent growth in core REPAY combined with strong political media contributions leading to sustained organic growth

- Natural margin mix from KUBRA's vertical, product, and payment mix compared to core REPAY
- Core REPAY continues to grow Adjusted EBITDA dollars from the ramp up of new enterprise clients, while continuing to invest in technology, product, and go-to-market teams

¹⁾ Organic growth is a non-GAAP financial measures. See slide 1 under "Non-GAAP Financial Measures" and slide 17 for reconciliation

Consumer Payments Results – Q2 2026 (\$MM)

Key Business Highlights

- Closed KUBRA acquisition in June
 - KUBRA contributed ~\$21mm of revenue, increasing ~5% year-over-year compared to June 2025
- Organic revenue growth driven by the on-going ramp up of new clients
 - Confidence in our sales and implementations
- We are continuing to win large enterprise clients
- Client relationships building with several existing REPAY and KUBRA clients interested in expanding bill presentment & payment capabilities
- GP margins naturally impacted from KUBRA, while we are continuing to benefit from our strategic initiatives with a distribution partner and network routing optimization

Integration Plan for One Platform

- Phased hybrid integration plan optimizes client upgrades during infrastructure unification
 - Taking the best of best combined technologies for one payments ecosystem
 - Feature and compliance parity essential before client feature optimization

KUBRA — The Experience Platform

- KUBRA's customer-facing platforms unify under the KUBRA HQ+ platform
- KUBRA's market-leading capabilities continue offering:
 - Bill Payment Workflows
 - Customer Experience & Communications
 - Biller Configuration & Onboarding
 - Verification Vault, Identity Management, & Data Composition

REPAY — The Payments and RCS Engine

- REPAY's infrastructure powers the money movement:
 - Payment processing across all modalities
 - Multi-network support for every channel
 - Omni-channel delivery (web, mobile, IVR, API)
 - Enterprise-grade uptime & scale
 - Intelligent routing

Bringing It Together

- Unified APIs connect KUBRA's experience platform to REPAY's payments engine
- Planned seamless client upgrades phased over 18–24 months
- AI-assisted engineering accelerates upgrade plans without compromising quality

One platform for scale • Enhanced client experience
A stronger foundation for growth

Balance Sheet Liquidity and Net Leverage

Liquidity ⁽¹⁾

Revolver Capacity Total Liquidity

Focused on Maintaining Significant Liquidity

- Business continues to show high cash flow conversion
- Continued investments in organic growth as we execute on integration plans and synergy realization
- Preserve liquidity and profitability through:
 - Hiring focused on revenue generating & client supporting roles
 - Limited discretionary expenses

Net Leverage ⁽²⁾

Committed to Prudently Managing Leverage

- Target to deleverage below 3.0x within 18 months of closing KUBRA acquisition
- Total Outstanding Debt comprised of:
 - \$288 million 2029 Convertible Notes with 2.875% coupon
 - \$500 million 2033 Senior Secured Term Loan with SOFR plus 5.5% interest rate
- \$100 million revolver facility provides flexibility for net working capital needs and potential debt maturities

¹⁾ Total liquidity represents cash balance plus the undrawn revolver facility

²⁾ Net Leverage is a non-GAAP financial measure. See slide 1 under "Non-GAAP Financial Measures"

³⁾ Combined LTM Net Leverage represents LTM Adjusted EBITDA as of 6/30/2026 adjusted for transaction-related adjustments and synergies

¹⁾ Historical periods beginning Q3 2023 reflect cash paid for intangibles assets that exclude acquisition costs that are capitalized as channel relationships

²⁾ Adjusted Free Cash Flow represents Free Cash Flow plus in year technology, merger, and integration costs associated with synergy realization.

Adjusted Free Cash Flow Conversion represents Adjusted Free Cash Flow divided by Adjusted EBITDA

³⁾ Represents Free Cash Flow / Adjusted EBITDA

Depreciation and Amortization Detail

\$MM	Q2 2026	Q2 2025
Acquisition-related intangibles	\$22.0	\$19.5
Software	3.8	5.8
Amortization	\$25.8	\$25.3
Depreciation	1.8	0.2
Total Depreciation and Amortization	\$27.6	\$25.5

Note Adjusted Net Income is adjusted to exclude amortization of all acquisition-related intangibles as such amounts are inconsistent in amount and frequency and are significantly impacted by the timing and/or size of acquisitions (see corresponding adjustments in the reconciliation of net income to Adjusted Net Income presented above). Management believes that the adjustment of acquisition-related intangible amortization supplements GAAP financial measures because it allows for greater comparability of operating performance. Although REPAY excludes amortization from acquisition-related intangibles from its non-GAAP expenses, management believes that it is important for investors to understand that such intangibles were recorded as part of purchase accounting and contribute to revenue generation. Amortization of intangibles that relate to past acquisitions will recur in future periods until such intangibles have been fully amortized. Any future acquisitions may result in the amortization of additional intangibles.
